Program Description

The program encourages students to compare elements of their own culture with those of other cultures from other time periods. Students of history gain a sense of what is unique in, as well as generally characteristic of, individuals, groups, and national cultures in the present as well as the past. By emphasizing the link between the past and the contemporary world, the history program seeks to help students understand themselves and the times in which they live.

The History Program at the University of Illinois at Springfield offers students a wide range of courses, a highly qualified faculty and class sizes that permit faculty to give students individual attention. The online History Program allows students to actively participate in dynamic, diverse, and interactive online learning communities, and complete their degrees in their own time and at their own pace via the Internet. The web-based format enables them to complete coursework using the latest networked information technologies for increased access to educational resources, advisers, and materials.
